DETAILED ACTION

Election/Restrictions

1. This application contains claims 7-20 drawn to an invention nonelected with traverse in Paper filed 07/18/06. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 1-2 and 21-27 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Laid-Open Publication No. 10-120074/1998 (Tokukaihei 10-120074). Tokukaihei discloses a flexible substrate storage equipment comprising: at least a pair of opposed members (connecting bars 3a & 3b) that constitute an outer frame of a storage equipment main body, wherein said pair of opposed members are disposed so as to maintain a predetermined interval to wedge a plurality of flexible substrates (LCD panels) in between to hold them in a shape of a curve, wherein each of said pair of opposed members includes a plurality of holding members (panel holding portion 4a which slats downward and panel holding portion 4b which is slanted upwards) for holding the plurality of flexible substrates in alignment, said plurality of holding members in a pair being spaced apart from each other, and wherein each of

said holding members has a single finger; and wherein said plurality of substrates do not form a right angle with respect to said pair of opposed members, and wherein the holding members are angled so as to define an angle which is not right angle between each holding member and the corresponding one of the opposed members, and each of the flexible substrates contacts both of the pair of opposed members. See Figure 1 embodiment.

Response to Arguments

4. Applicant's arguments filed 06/04/2007 have been fully considered but they are not persuasive. Contrary to applicant's argument each flexible substrate in the storage equipment of Tokukaihei contacts both of the pair of opposed members (3a and 3b).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to whose telephone number is (571) 272-4558. The examiner can normally be reached on Monday-Friday 7:30-4:00 (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mickey Yu can be reached on (571) 272-4562. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
